

- Go to **Eucon Webportal** <https://portal.eucon.nl>
- After LOGIN you can update / view shipments requiring a verified payload (VP) or verified gross mass (VGM) by clicking on the VGM ENTRY in the main menu

Method 2 – ADVISE VERIFIED PAYLOAD – CLICK ON UPDATE VGM

- Click on UPDATE VGM button to save Verified Payload. You cannot input a VGM before the container number has been input (optional).

Method 2 – ADVISE VERIFIED PAYLOAD - CONFIRMATION

- System will confirm when update has been processed on screen and by email.

IMPORTANT – when Verified Payload has been input system will calculate the VGM when the CONTAINER NUMBER is known. YOU ARE NOT REQUIRED TO INPUT THE CONTAINER NR.

VGM ENTRY

Click on the **EUCON VGM INPUT READER** for a step by step guide on how to update your existing booking with container number, VGM weight and/or verified payload.

If you have any issues or questions please contact your **LOCAL CUSTOMER SERVICE / SALES** representative or send an email to the **EUCON** Helpdesk.

Actual/Upcoming shipments until 12-07-2024 for account:

Bookingnr	Customer reference	Vessel	Register VGM weight	
DUBRTM2478802	TEST 24.1	1242803 / Ranger	Booking : DUBRTM2478802	

Item	Containernumber	Cargo weight	Verified payload
1	<input type="button" value="Enter containernr."/>	5200	0

Verified payload:

Containernumber is unknown, only verified payload can be advised

No. packages:

Desc. of goods:

Sealno.

Method 2 – ADVISE CONTAINER NUMBER (OPTIONAL)

- Click on Enter Container nr to input container number if known – if not system will be automatically updated when container is delivered to terminal for shipment

VGM ENTRY

Click on the **EUCON VGM INPUT READER** for a step by step guide on how to update your existing booking with container number, VGM weight and/or verified payload.

If you have any issues or questions please contact your **LOCAL CUSTOMER SERVICE / SALES** representative or send an email to the **EUCON** Helpdesk.

Thank you for your input, VGM has been saved

Bookingnr	Customer reference	Vessel	Enter new containernumber	
DUBRTM2478802	TEST 24.1	1242803 / Ranger	Booking : DUBRTM2478802	

Item	Containernumber	Cargo weight	verified payload
1	<input type="button" value="Enter containernr."/>	5345	5345

Containernumber:

Result: Container not found, please enter containertype and tare

Containertype:

Tare: kg.

Terminal:

RST Zuid:

Sealno.

Method 2 – VGM UPDATED = Container Tare + Verified Payload = VGM

- When container number is input (either via webportal or on delivery to terminal) system will automatically calculate VGM (Verified Payload weight + tare weight of container) and update the record.
- Eucon will confirm all VGM's to the customer on our shipping confirmation.

MULTIPLE LOADING OR DELIVERY SHIPMENTS – UPDATE VERIFIED PAYLOAD / VGM

- For containers with multiple deliveries, system has split the items for each delivery.
- Verified weight must be confirmed for EACH ITEM / DROP
- If container number has been input system will recalculate VGM automatically when all verified weights have been confirmed eg VERIFIED PAYLOAD OF ALL ITEMS + TARE = VGM

VGM ENTRY
